* Because the blend price adjusted for location was at or below the Class III price in certain zones in some markets in the East North Central, West North Central, and Pacific regions, handlers elected not to pool an estimated 600 million and 1.3 billion pounds in October 1994 and 1993, respectively, that normally would have been pooled under these orders. The total estimated amounts of milk not pooled for this reason through the month of October are: for 1994, 3.8 billion pounds; and for 1993, 5.9 billion pounds. ^{1/} End-of-year figure. Remaining annual statistics are for all markets in effect during any part of the year, except for the Michigan Upper Peninsula market, for which all the data were restricted and thus excluded through 1992. ^{2/} Represents changes over the previous year. Percentages computed from unrounded numbers. Data for 1992 have been adjusted to a 365-day basis before computing percent changes. ^{3/} Figures are based on the same group of comparable markets--markets where the orders were in effect the entire period 1993-94, and for which the data were not affected significantly by marketing area changes; excludes Georgia, Alabama-West Florida, Nashville, Memphis, and Central Arkansas. Figures also exclude Michigan Upper Peninsula in January and February, for which some of the data were restricted. ^{4/} Due to a change in classification procedures that was effective July 1, 1993, year-to-year comparisons of producer deliveries used in Class I are overstated through June 1994. ^{5/} Average or total.

SUMMARY OF PACKAGED DISPOSITIONS OF FLUID MILK AND FLUID CREAM ITEMS 1/

| Year and month | Number of markets | Whole milk items 2/ | | | | Lowfat and skim milk items 3/ | | | | Milk and cream mixtures | | | | Cream items 4/ | | | | Total fluid milk and fluid cream items 5/ | | | |

| Year to date | ---- | 10,025 | -1.4 | 3.26 | 19,869 | 1.7 | 1.39 | 349 | 0.2 | 10.6 | 478 | 3.6 | 20.3 | 31,300 | 1.0 | 2.37 | | | | | |

1/ Total packaged disposition, in and out of the marketing area, by regulated handlers. Besides receipts from producers, these dispositions also may include receipts from other Federal order plants and/or receipts from other sources. Due to a change in classification procedures that was effective July 1, 1993, sour cream, yogurt, and eggnog are now reported on a used-to-produce basis. Previously, most orders reported data for these products on a disposition basis.

2/ Plain, flavored, and miscellaneous whole milk products.

3/ Plain, solids added, flavored, and miscellaneous lowfat and skim milk products, and buttermilk.

4/ Light, heavy, and sour cream and cream dips.

5/ In addition to listed fluid milk and cream products, includes eggnog and yogurt.

6/ Represents changes over the previous year. Percentages are based on the data for all markets combined. Data for 1992 are adjusted to a 365-day basis before computing percent changes.

7/ Represents the data for all Federal milk order markets, except for New York-New Jersey. For percent changes based on comparable markets, see tables 12 and 13.

*Due to the unusual price relationships and/or qualification circumstances in some markets in 1989-1993 and 1994, handlers elected not to pool significant volumes of milk that normally would have been pooled under Federal milk orders. Because this milk would have been classified as Class III under the orders, the utilization in butter, cheese, and nonfat dry milk production for these years was affected.

1/ Includes producer milk and other source milk used to produce manufactured dairy products in regulated pool plants as well as milk diverted and shipped to non-order plants for processing. Other source milk at regulated plants includes bulk transfers and diversions from other Federal orders, and receipts from unregulated sources. Some of the data are preliminary and partially estimated.

2/ In addition to listed manufactured products, includes milk, skim milk, and cream used in other manufactured dairy products: e.g. cottage cheese, evaporated milk, condensed milk, dried products, and aerated cream; and milk, skim milk, and cream used in other food and non-food products. The total also includes dumped or spilled milk and plant loss.

3/ Represents changes over the previous year. Percentages are based on the data for all markets combined. These changes are based on pounds of butterfat, except for nonfat dry milk, which are based on pounds of skim milk. Data for 1992 are adjusted to a 365-day basis before computing percent changes.

4/ Represents the data for all Federal milk order markets, except for New York-New Jersey. For percentage changes based on comparable markets, see tables 18 and 19.

1/ In-area sales include total sales in each of the areas by handlers regulated under the respective orders, by handlers regulated under other orders, by partially regulated handlers, and by producer-handlers. Sales routes of handlers may extend outside defined marketing areas; therefore, some handlers' in-area sales are partially estimated.

2/ Plain, flavored, and miscellaneous whole milk products.

3/ Plain, solids added, flavored, and miscellaneous lowfat and skim milk products, and buttermilk.

4/ Represents changes over the previous year. Percentages are based on the same group of markets comparable in both years. Data for 1992 are adjusted to a 365-day basis before computing percent changes.

5/ Adjusted to eliminate variation in data to calendar composition and seasonality.

6/ Represents the data for all Federal milk order markets except for New York-New Jersey.

MARKETING AREAS UNDER FEDERAL MILK ORDERS AS OF JANUARY 1, 1994

^{1/} Prices are for 100 pounds of milk of 3.5 percent butterfat content. Prices are listed generally for the major city in the marketing area; see footnotes on pages 42 and 43 for these locations. ^{2/} The fluid differential is the amount added to the basic formula price to determine the Class I price. The basic formula price is the Minnesota-Wisconsin price for the second preceding month adjusted to a 3.5 percent butterfat content. See Table 27. The fluid differentials shown for New England, New York-New Jersey, and Michigan Upper Peninsula reflect location adjustments. The differentials specified in the orders are: New England - \$2.52; New York-New Jersey - \$2.42; and Michigan Upper Peninsula - \$1.15.

See footnotes on page 45.

1/ Prices are for milk of 3.5 percent butterfat content and for the major city in the marketing area. All averages are weighted.

2/ For those markets which have base-excess plans (see table 21), the prices represent a weighted average of the base and excess prices. For those markets which have multiple component pricing (see table 22), the prices represent the Minnesota-Wisconsin price plus the weighted average differential price computed under the order.

3/ For the 27 marketing areas where it currently is in effect, this price is applicable to producer milk used to produce nonfat dry milk. See "Summary of Federal milk order actions, December 1993" in FMOS-399.

4/ Zone 1 (Boston). Price at 201-210 mile zone: Class I and blend, 72 cents less. Class I and blend price at Hartford, 10 cents less.

5/ New York metropolitan area. Price at 201-210 mile zone: Class I and blend, 72 cents less; Class II and Class III, 8 cents less. The Class III-A price for June 1994 should have read \$10.06.

6/ Philadelphia, Baltimore, and Washington, D.C. Price excludes a 6-cent direct delivery differential applicable to milk delivered to the Philadelphia area.

7/ Charlotte.

8/ Atlanta.

9/ Zone 2 (Birmingham).

10/ Jacksonville and Tallahassee.

11/ Miami.

12/ Figures are based on the same group of comparable markets--markets where the orders were in effect the entire period 1993-94, and for which the data were not affected significantly by marketing area changes; excludes Georgia, Alabama-West Florida, Nashville, Memphis, and Central Arkansas. The termination of the Nashville and Memphis milk orders affected significantly the comparability of the data for these neighboring marketing areas. See 28/.

13/ Zone II (Marquette).

14/ Individual handler pool. Blend prices are weighted average of all handlers.

15/ Zone 1 (Detroit). Price excludes a 10-cent direct delivery differential applicable to milk delivered to the Detroit metropolitan area.

16/ Cleveland and Pittsburgh.

17/ Zone 3 (Columbus). Class I and blend price at Cincinnati (Zone 4) 7 cents more.

18/ Indianapolis.

19/ Zone 1 (Chicago). Class I and blend price at Milwaukee (Zone 4) 9 cents less.

20/ Peoria.

FOOTNOTES FOR TABLES 2 AND 3. -CONTINUED

21/ Base Zone (Alton). Class I and blend price at Carbondale (Southern Zone) and at St. Louis 9 cents more.

22/ Zone 1 (Minneapolis).

23/ Zone 1 (Des Moines). Class I and blend price at Rock Island, Ill., 7 cents less; and at Waterloo, 17 cents less.

24/ Zone 1 (Omaha).

25/ Kansas City and Topeka.

26/ Figures exclude, where applicable, Eastern South Dakota, Black Hills, and Western Colorado; the data used to weight the monthly prices were restricted. The applicable figures are:

| Marketing area | Class I | | Blend | | Class II | Class III | Prod. Diff. |
|----------------|-------------------|-------|-------|-------|----------|-----------|-------------|
| | 1994 | 1993 | 1994 | 1993 | 1994 | 1994 | 1994 |
| | -----Dollars----- | | | | | | Cents |
| E. S. Dakota | 12.91 | 12.92 | 12.68 | 12.33 | 12.95 | 12.04 | 6.4 |
| Black Hills | 13.46 | 13.47 | 13.35 | 13.14 | 12.53 | 11.26 | 6.4 |
| W. Colorado | 13.41 | 13.42 | 13.43 | 13.24 | 12.95 | 12.04 | 6.4 |

27/ Bristol, Chattanooga, and Knoxville.

28/ Effective July 31, 1993, the order regulating this marketing area was terminated.

29/ Little Rock.

30/ Zone 1 (Oklahoma City). Class I and blend price at Springfield, Mo., 58 cents less.

31/ Zone 1 (Dallas). Class I and blend price at Houston, 54 cents more.

32/ Monroe and Shreveport.

33/ Zone 1 (New Orleans).

34/ Denver.

35/ Boise, Idaho.

36/ Salt Lake City, Utah.

37/ Phoenix.

38/ Albuquerque, Santa Fe, and El Paso.

39/ Zone 1 (Seattle and Portland).

40/ Figures exclude, where applicable, Eastern South Dakota, Black Hills, and Western Colorado; the data used to weight the monthly prices were restricted. The applicable figures are:

| Marketing area | Class I | | Blend | | Class II | Class III | Prod. Diff. |
|----------------|-------------------|-------|-------|-------|----------|-----------|-------------|
| | 1994 | 1993 | 1994 | 1993 | 1994 | 1994 | 1994 |
| | -----Dollars----- | | | | | | Cents |
| E. S. Dakota | 13.23 | 12.67 | 12.80 | 12.60 | 12.15 | 12.29 | 6.3 |
| Black Hills | 13.78 | 13.22 | 13.54 | 13.12 | 12.15 | 11.30 | 6.3 |
| W. Colorado | 13.73 | 13.17 | 13.54 | 13.07 | 12.15 | 12.29 | 6.3 |

FOOTNOTES FOR TABLES 4 THROUGH 11.

1/ Prices are for milk of 3.5 percent butterfat content and for the major city in the marketing area. See footnotes on pages 40 and 41 for location at which price is reported. All averages are weighted.

2/ Figures are based on the same group of comparable markets--markets where the orders were in effect the entire period 1993-94, and for which the data were not affected significantly by marketing area changes; excludes Georgia, Alabama-West Florida, Nashville, Memphis, and Central Arkansas. The termination of the Nashville and Memphis milk orders affected significantly the comparability of the data for these neighboring marketing areas. See 3/. Figures also exclude Eastern South Dakota, Black Hills, and Western Colorado, where applicable; the data used to weight the monthly prices are restricted.

3/ Effective July 31, 1993, the order regulating this marketing area was terminated.

4/ Figures for 1993 are for January-July.

5/ Figures are based on the same group of comparable markets--markets where the orders were in effect the entire period 1993-94, and for which the data were not affected significantly by marketing area changes; excludes Georgia, Alabama-West Florida, Nashville, Memphis, and Central Arkansas, see 3/.

6/ In these marketing areas, milk was not pooled due to unusual price relationships. See "*" on page 4.

7/ The data for these marketing areas are combined in order to mask restricted data. See table 1 for complete marketing area name.

8/ Due to a change in classification procedures that was effective July 1, 1993, year-to-year comparisons of producer deliveries used in Class I are overstated through July 1994.

1/ In-area sales include total sales in each of the areas by handlers regulated under the respective order, by handlers regulated under other orders, by partially regulated handlers, and by producer-handlers. Sales routes of handlers may extend outside defined marketing areas; therefore, some handlers' in-area sales are partially estimated.

2/ Plain, flavored, and miscellaneous whole milk products.

3/ Plain, fortified, flavored, and miscellaneous lowfat and skim milk products, and buttermilk.

4/ Effective July 31, 1993, the order regulating this marketing area was terminated.

5/ Comparable markets are markets where the orders were in effect the entire period 1993-94, and for which the data were not affected significantly by marketing area changes; excludes Nashville and Memphis, see 4/.

6/ Excludes New York-New Jersey.

7/ Figures adjusted to eliminate variation in data due to calendar composition.

8/ The data for this market are estimated.

9/ See table 12 for marketing areas included; excludes New York-New Jersey.

10/ Total packaged disposition, in and out of the marketing area, by regulated handlers. Besides receipts from producers, these dispositions also may include receipts from other Federal order plants and/or receipts from other sources. Due to a change in classification procedures that was effective July 1, 1993, sour cream, yogurt, and eggnog are now reported on a used-to-produce basis. Previously, most orders reported data for these products on a disposition basis.

11/ See table 12 for marketing areas included; excludes New York-New Jersey. Percent changes are based on the same groups of comparable markets; see 5/.

12/ Light, heavy, and sour cream, and cream dips.

13/ In addition to listed fluid milk and cream products, includes yogurt and eggnog.

14/ Includes producer milk and other source milk used to produce manufactured dairy products in regulated pool plants, as well as milk diverted and shipped to non-order plants for processing. Other source milk at regulated plants includes bulk transfers and diversions from other Federal orders, and receipts from unregulated sources. Some of the data are preliminary and partially estimated.

15/ In addition to listed manufactured products, includes milk, skim milk, and cream used in other manufactured dairy products, e.g., evaporated milk, condensed milk, dried products, aerated cream, and skim milk equivalent used to fortify fluid milk products; milk, skim milk, and cream used in other food products as well as used in animal feed, dumped or spilled, plant loss, and miscellaneous products.

16/ Percent changes over the previous year are based on the same group of comparable markets--markets where the orders were in effect the entire period, 1993-94, and for which the data were not affected significantly by marketing area changes; all markets are comparable. These changes are based on pounds of butterfat, except for nonfat dry milk which are based on pounds of skim milk.

17/ Restricted.

18/ The marketing areas in which milk was not pooled in August 1994 due to unusual price relationships were in these regions. See "*" on page 6.

19/ The marketing areas in which milk was not pooled in September 1993 and 1994 due to unusual price relationships were in these regions. See "*" on page 6.

TABLE 20--PERCENTAGE OF WHOLE MILK EQUIVALENT (MILKFAT BASIS) USED IN THE PRODUCTION OF MANUFACTURED DAIRY PRODUCTS,
IN FEDERAL ORDER MARKETS, JANUARY 1994 TO DATE, WITH COMPARISONS ^{1/}

| Manufactured dairy product | January | | February | | March | | April | | May | | June | |

| All other ^{2/} | 10.3 | 7.2 | 8.9 | 7.6 | 7.9 | 7.6 | | | | | | |
| Total | 100.0 | 100.0 | 100.0 | 100.0 | 100.0 | 100.0 | 100.0 | 100.0 | 100.0 | 100.0 | 100.0 | 100.0 |

^{1/} Data represent whole milk equivalent based on milkfat content. Includes producer milk and other source milk used to produce manufactured dairy products in regulated pool plants as well as milk diverted and shipped to non-order plants for processing. Some of the data are partially estimated. Excludes New York-New Jersey.

^{2/} Milk, skim milk, and cream used in other manufactured dairy products, e.g. evaporated milk, condensed milk, dried products, and aerated cream; and milk, skim milk, and cream used in other food products as well as used in animal feed, dumped or spilled, plant loss, and miscellaneous products.

TABLE 21--FEDERAL MILK ORDER BASE AND EXCESS PRICES IN VARIOUS MARKETING AREAS, SEPTEMBER AND OCTOBER, WITH COMPARISONS 1/

| Federal milk order marketing area | Prices per hundredweight | | | | | | | |

^{1/} This pricing provision is currently in effect in 38 marketing areas. Three separate differentials and Class II prices are computed and are listed according to the group of marketing areas to which each applies. These groups of marketing areas are: Group A: Alabama-West Florida, Black Hills (see ^{5/}), Carolina, Central Arizona, Central Arkansas, Central Illinois, Chicago Regional, Eastern Colorado, Eastern Ohio-Western Pennsylvania, Eastern South Dakota, Georgia, Great Basin, Greater Kansas City, Greater Louisiana, Indiana, Iowa, Louisville-Lexington-Evansville, Michigan Upper Peninsula, Middle Atlantic, Nebraska-Western Iowa, New England, New Mexico-West Texas, New Orleans-Mississippi, New York-New Jersey, Ohio Valley, Paducah, Southern Illinois-Eastern Missouri, Southern Michigan, Southwest Plains, Southwestern Idaho-Eastern Oregon, Tennessee Valley, Texas, Upper Midwest, and Western Colorado; Group B: Southeastern Florida, Tampa Bay, and Upper Florida; Group C: Pacific Northwest. ^{2/} Price at 3.5 percent butterfat content for the second preceding month. ^{3/} Total weighted change in gross values of milk used to produce Cheddar cheese and butter/nonfat dry milk. ^{4/} Class III price for the second previous month minus the computed Class II price for the second previous month. If the computed Class II price was equal to or higher than the Class III price, there is no adjustment.

^{5/} This marketing area may not have the same Class III price in a given month as other Group A markets. Consequently, the adjustment and Class II price may not always be the same.

TABLE 24--FACTORS USED IN THE COMPUTATION OF CLASS III-A PRICES IN FEDERAL MILK ORDER MARKETS, JANUARY 1994 TO DATE 1/

| Month | Butterfat Differential | Nonfat Dry Milk Price 2/ | | Modified Yield Factor 5/ | | Class III-A Price 6/ | |

| November | | | | | | | |
| December | | | | | | | |

1/ This pricing provision is currently in effect in 27 marketing areas. See "Summary of Major Order Actions, December 1993" in FMOS-399 and table 2 in this report for the affected marketing areas. This price is applicable to producer milk used to produce nonfat dry milk.

2/ "Dairy Market News," AMS.

3/ This price series is used in the computation of the modified yield factor and Class III-A Prices in all but 3 of the 27 affected marketing areas. See 1/.

4/ This price series is used in the computation of the modified yield factor and Class III-A Prices in the western marketing areas. See 1/.

5/ 9 less (0.4 divided by the applicable nonfat dry milk price).

6/ (Butterfat differential times 35) plus [(applicable nonfat dry milk price less 12.5 cents) times the applicable modified yield factor].

7/ See 1/ to find the marketing areas that use this nonfat dry milk price series.

8/ New England, New York-New Jersey, and Middle Atlantic also use a seasonal adjustment in the computation of Class III-A prices.

* Too few to report. 1/ "Dairy Market News," AMS. 2/ Daily weighted average. Exchange price will be effective from day of release until the next release date; holidays and weekends are included. Weighted days per month will equal the number of calendar days. 3/ The Chicago area plant price is for the 26th of the preceding month through the 25th of the current month, as reported by National Agricultural Statistics Service. This price was used in the computation of the Butter-Powder Snubber price (See table 27) through June 1993. Effective July 1993, this price series was discontinued. For July 1993 to date, the Central States price is used in this computation.

TABLE 27--UNITED STATES MILK PRICES, MINNESOTA-WISCONSIN PRICE SERIES, AND BUTTER-POWDER "SNUBBER" PRICES, AND SELECTED DAIRY FARMER PRICE MEASURES, JANUARY 1994 TO DATE, WITH COMPARISONS

1/ Based on prices at test as reported in "Agricultural Prices," NASS; converted to a 3.5 percent test by using the butterfat differential specified in Federal milk orders for conversion of the M/W price. 2/ Average price reported paid to producers for manufacturing grade milk f.o.b. plants in Minnesota-Wisconsin as reported by NASS. 3/ (Chicago Wholesale Grade A butter price times 4.2) plus (nonfat dry milk, spray, Chicago area plant price times 8.2) less 48 cents. Effective July 1993, the Chicago area plant price was replaced with the Central States price.

4/ "Agricultural Prices," NASS. 5/ Animals sold for dairy herd replacement only. 6/ Figures are published for January, April, July, and October only. 7/ Mid-month price. 8/ Includes beef cows and cull dairy cows sold for slaughter, but not dairy cows for herd replacement. 9/ Pounds of 16 percent mixed dairy feed equal in value to 1 pound of milk sold to plants. Since the price of 16 percent mixed dairy feed is reported only for 4 months--see 6/, the figures for other months are calculated using the last known feed price. For example, the figures for February and March use the January feed price and the respective all milk price for February and March.

1/ "Milk Production," NASS. Monthly milk production is collected only for 21 selected States. NASS collects total U.S. production on a quarterly basis only. NASS estimates total U.S. monthly production based on the pattern in production in the 21 survey States. 2/ "Dairy Products," NASS. Frozen products include ice cream, ice milk, sherbet, frozen yogurt, and other frozen products. 3/ The sum of the monthly figures may not add up to the total due to rounding.

Summary of Federal Milk Order Actions, September 1994

Suspensions:

Eastern Colorado - September 1 (59 FR 46157, 9/7/94). This action suspends certain provisions of the Eastern Colorado order. For the months of September 1994-February 1995, the suspension removes the restriction on the months when supply plants will be eligible for automatic pooling. For the months of September 1994-August 1995, the touch-base requirement will not apply and the amount of producer milk that may be diverted by cooperatives will be increased.

Middle Atlantic - September 1 (59 FR 49343, 9/28/94). This action reduces the total route disposition standard for pool distributing plants from 40 percent to 30 percent and provides automatic pool plant status for supply plants and reserve processing plants that were pool plants during the months of September through February. In addition, it suspends the limit on the amount of milk that may be diverted to nonpool plants by cooperative associations and by pool plant operators for the months of September 1994 through February 1995.

Revisions:

Chicago Regional - September 1 (59 FR 44032, 8/26/94). This action reduces the shipping percentage for individual supply plants by 4 percentage points (from 5 to 1 percent) and the shipping percentage for supply plant units by 6 percentage points (from 10 to 4 percent) for September 1994.

Eastern Ohio-Western Pennsylvania - September 1 (59 FR 48557, 9/22/94). This action continues, for the months of September 1994 through December 1995, a reduction of the percentage of a cooperative association's member milk that must be delivered to distributing plants if the cooperative's reserve processing plant is to meet the pooling requirements of the Eastern Ohio-Western Pennsylvania order (Order 36). The shipping percentage is currently reduced from 35 percent to 25 percent of receipts of member milk.

Summary of Federal Milk Order Actions, October 1994

Revision:

Southwest Plains - October 1 (59 FR 48786, 9/22/94). This action continues to reduce, from 45 to 35 percent, the shipping requirement for a cooperative association that operates a balancing plant for the period from October 1, 1994, through September 30, 1995.
